

UNIFIED LIST OF DRUGS
for tests "STEP-1" in pharmacology

<p>Drugs that affect afferent innervation</p> <p>Local anesthetics</p> <p>1. Lidocaine (Xycaine)</p> <p>Drugs affecting efferent innervation</p> <p>Cholinotropic agents</p> <p>2. Atropine sulfate</p> <p>3. Pilocarpine</p> <p>4. Neostigmine methylsulfate</p> <p>5. Suxamethonium</p> <p>Adrenotropic drugs</p> <p>6. Epinephrine</p> <p>7. Phenylephrine</p> <p>8. Salbutamol</p> <p>9. Propranolol</p> <p>10. Metoprolol</p> <p>Hypnotic, anticonvulsant, antiparkinsonian drugs</p> <p>11. Zopiclone</p> <p>12. Phenobarbital</p> <p>13. Sodium valproate</p> <p>14. Levodopa</p> <p>Narcotic and non-narcotic analgesics, NSAIDs</p> <p>15. Morphine hydrochloride</p> <p>16. Fentanyl</p> <p>17. Paracetamol (Acetaminophen)</p> <p>18. Diclofenac sodium</p> <p>19. Ibuprofen</p> <p>20. Celecoxib</p> <p>Psychotropic drugs</p> <p>21. Diazepam</p> <p>22. Haloperidol</p> <p>23. Risperidone</p> <p>24. Caffeine citrate</p> <p>25. Amitriptyline</p> <p>26. Fluoxetine</p> <p>Drugs affecting the respiratory system</p> <p>27. Acetylcysteine</p> <p>28. Ambroxol</p> <p>29. Glaucine</p> <p>Cardiotonic agents</p> <p>30. Digoxin</p> <p>31. Strophanthin</p> <p>Antiangular, antiarrhythmic drugs</p> <p>32. Nitroglycerine</p>	<p>33. Amiodarone</p> <p>34. Verapamil</p> <p>Hypotensive, hypolipidemic drugs</p> <p>35. Lisinopril</p> <p>36. Losartan potassium</p> <p>37. Doxazosin</p> <p>38. Amlodipine</p> <p>39. Nifedipine</p> <p>40. Atorvastatin</p> <p>Drugs that affect the function of the gastrointestinal tract, enzyme preparations</p> <p>41. Famotidine</p> <p>42. Omeprazole</p> <p>43. Almagel</p> <p>44. Lactulose</p> <p>45. Loperamide</p> <p>46. Silymarin</p> <p>47. Metoclopramide</p> <p>48. Pancreatin</p> <p>Agents affecting the kidneys and myometrium, antipodagogic agents</p> <p>49. Hydrochlorothiazide</p> <p>50. Furosemide</p> <p>51. Acetazolamide</p> <p>52. Spironolactone</p> <p>53. Allopurinol</p> <p>54. Oxytocin</p> <p>55. Levonorgestrel</p> <p>Antispasmodics of myotropic action</p> <p>56. Drotaverine</p> <p>Drugs that affect the blood system</p> <p>57. Ferric sulfate</p> <p>58. Menadione</p> <p>59. Tranexamic acid</p> <p>60. Acetylsalicylic acid</p> <p>61. Clopidogrel</p> <p>62. Heparin</p> <p>63. Enoxaparin</p> <p>64. Warfarin</p> <p>65. Alteplase</p> <p>66. Dabigatran</p> <p>Vitamin preparations</p> <p>67. Ergocalciferol</p> <p>68. Retinol acetate</p> <p>69. Ascorbic acid</p>	<p>70. Folic acid</p> <p>Hormonal preparations</p> <p>71. L-thyroxine</p> <p>72. Prednisolone</p> <p>73. Insulin</p> <p>74. Metformin</p> <p>75. Beclomethasone</p> <p>Salts of metals</p> <p>76. Magnesium sulfate</p> <p>77. Potassium/magnesium asparaginate</p> <p>Antiallergic drugs</p> <p>78. Diphenhydramine</p> <p>79. Levocetirizine</p> <p>Antineoplastic drugs</p> <p>80. Methotrexate</p> <p>Antiseptics and disinfectants</p> <p>81. Chlorhexidine</p> <p>82. Potassium permanganate</p> <p>83. Nifuroxazide</p> <p>Antibiotics, fluoroquinolones.</p> <p>Antifungal drugs</p> <p>84. Amoxicillin / clavulanate</p> <p>85. Ceftriaxone</p> <p>86. Meropenem</p> <p>87. Doxycycline</p> <p>88. Gentamicin</p> <p>89. Clarithromycin</p> <p>90. Ciprofloxacin</p> <p>91. Fluconazole</p> <p>Sulfonamides. Antituberculosis drugs. Antiviral agents</p> <p>92. Co-trimoxazole</p> <p>93. Rifampicin</p> <p>94. Isoniazid</p> <p>95. Acyclovir</p> <p>96. Ozeltamivir</p> <p>Antiprotozoal, anthelmintic agents</p> <p>97. Metronidazole</p> <p>98. Ivermectin</p> <p>99. Albendazole</p> <p>Antidotes</p> <p>100. Deferoxamine</p> <p>101. Naloxone</p>
